PURPOSE OF REQUESTING A BUSINESS PLAN

Business development and maintaining a successful business requires planning. A written plan is helpful in anticipating problems and developing strategies for avoiding or minimizing problems. Today, all lending institutions and investors ask for a Business Plan that enables them to make decisions on the applicant's ability to make a profit and repay the loan. In order for the SNIEDC Board to make responsible decisions regarding business loans, sufficient information needs to be submitted which will assist the Board in making these decisions.

A business plan is a formal document detailing the goals of a business and how they will be achieved. The document should include a comprehensive strategy detailing how and why your business will be successful. There are many aspects to consider when starting up your own business, and putting everything down on paper will better prepare you for the development of your new business. The Business Plan also shows if there are any high risks involved in the business. In addition the Business Plan will provide you with a "blue print" for your new business.

After the SNIEDC Board reviews the business plan and supporting information, they will be better equipped to identify any risks that are present in the venture plus work with the entrepreneur to minimize those risks.
